Our mission

Inherent need to connect

Across offices and remote

Different teams,
different needs

How Neat helps

We build intelligent collaboration appliances that enhance the meeting experience – for everyone

Simple • Scalable • Intelligent

Simple end-to-end experience

Purpose-built devices

Versatile portfolio reduces cabling, costs, and delivers consistent experiences in all room sizes.

AV over IP network-based design

Delivering a simplified, scalable architecture resulting in streamlined management.

Future-ready hardware

Devices built for Android 13, 15 & beyond extending certified support with our platform providers.

Scalable management built for productivity

Centralized cloud management

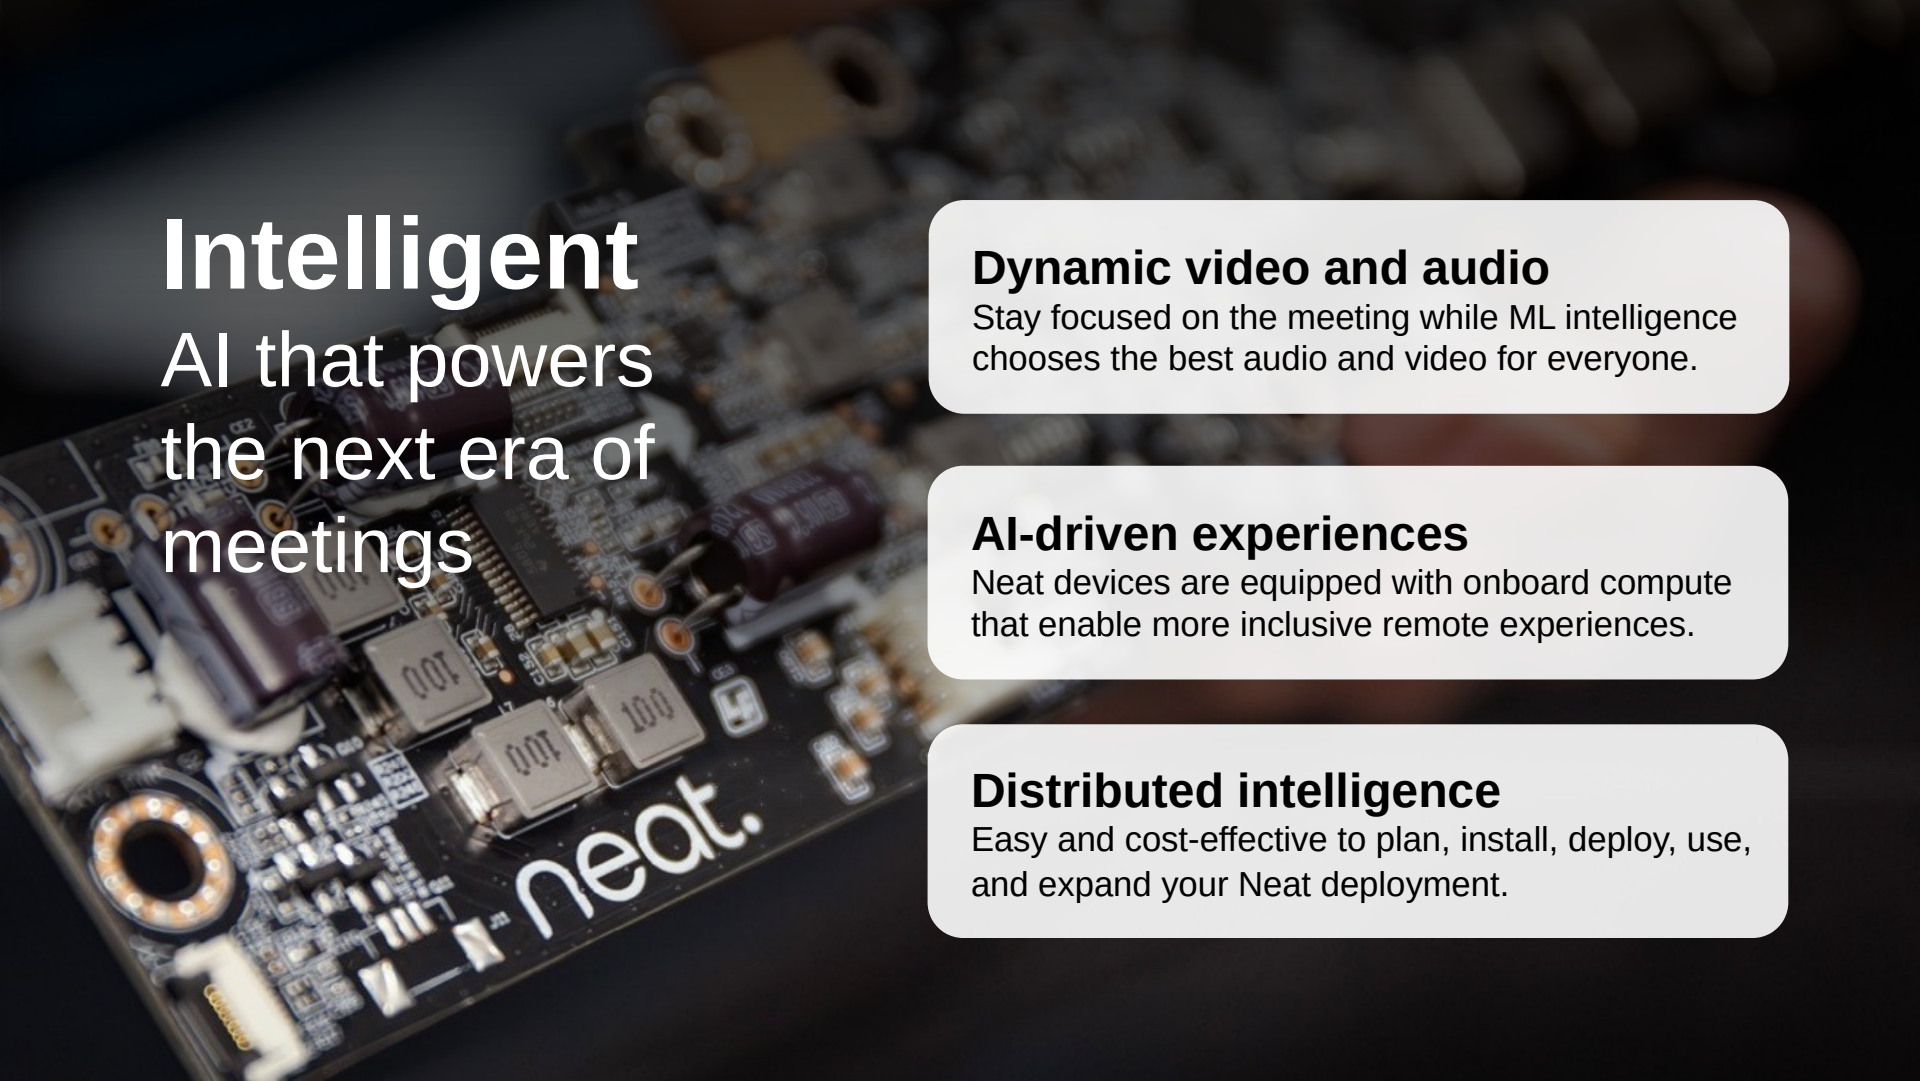

Monitor every device and manage rooms at scale with insights through Neat Pulse.

Enterprise-grade control

Reduce onsite work with remote updates, troubleshooting, and room control.

Built to build on

Integrate with your platform workflows using secure access, API's, and webhooks.

Intelligent AI that powers the next era of meetings

Dynamic video and audio

Stay focused on the meeting while ML intelligence chooses the best audio and video for everyone.

AI-driven experiences

Neat devices are equipped with onboard compute that enable more inclusive remote experiences.

Distributed intelligence

Easy and cost-effective to plan, install, deploy, use, and expand your Neat deployment.

Open access to any platform and workflow

Flexible platform support

Certified for Google Meet, Microsoft Teams, and Zoom providing a native meeting experience.

Bring your own device or AI

Connect to any meeting platform and integrate AI tools to your shared workspaces.

Neat Open

Unite BYOD, apps, and AI-powered meetings in one single cloud-managed experience.

neat.bar

Generation 2

The power of simple.

Superb meeting clarity, flexibility, and performance in our most versatile bar design yet.

Neat Bar Generation 2

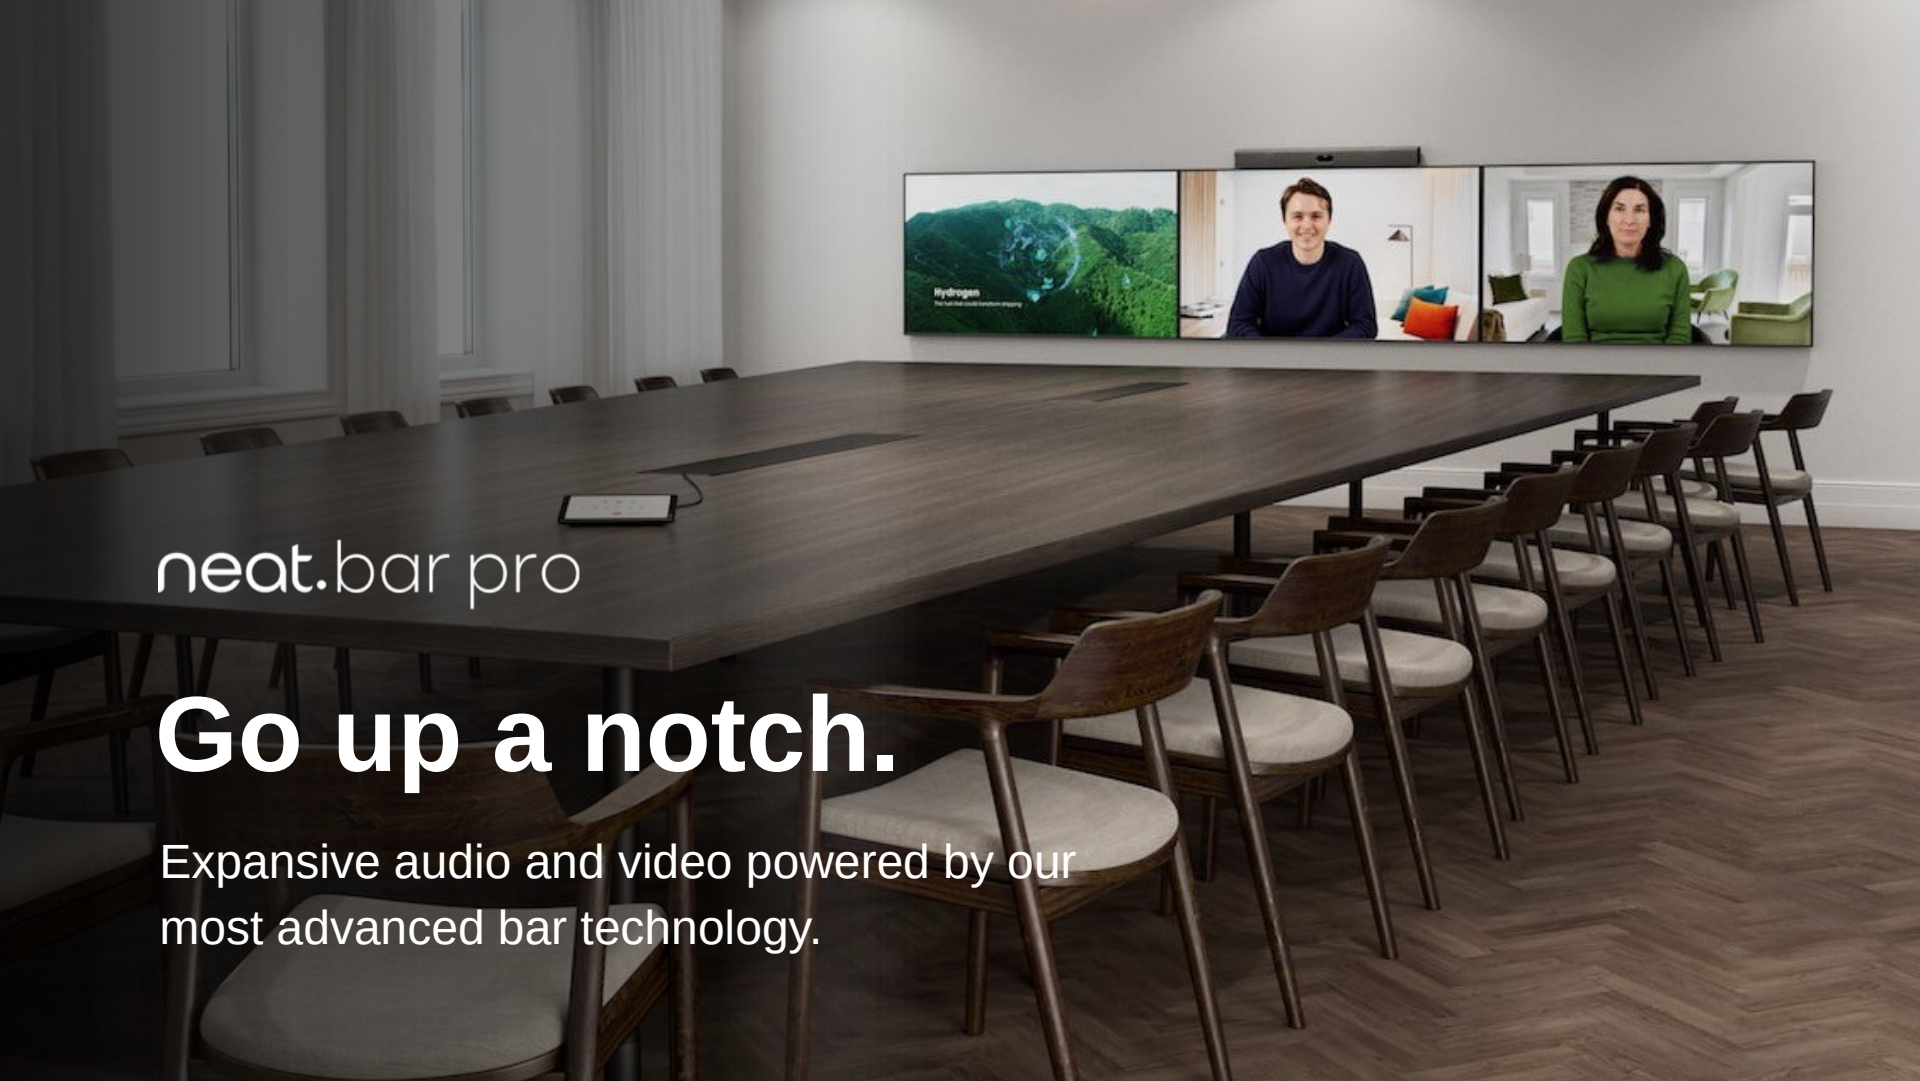

Spaces

Small to medium meeting spaces

Features

- Upgraded 50MP camera with dynamic speaker focus
- More powerful CPU in a slimmer form factor
- Dual-screen support for 4K resolution
- 16ft / 5m audio pickup to follow conversations more clearly
- Unique experiences like Neat Symmetry and more

neat.bar pro

Go up a notch.

Expansive audio and video powered by our most advanced bar technology.

Neat Bar Pro

Spaces

Medium rooms to large conference spaces

Features

- Integrated 16x zoom dual camera system and full-range audio to meet the demands of larger spaces
- Supports up to 3 displays*
- Pairs with a Neat Pad controller
- Unique experiences like Neat Symmetry and more

*Zoom supports up to 3 displays. Microsoft Teams supports up to 2 displays

neat.pad

Touch space. Book a space.

Slimline touchscreen device for meeting control or room availability.

Neat Pad

Spaces

Meeting rooms and hallways

Features

- 8" touch screen
- Dual purpose: Meeting control or room availability for Google Meet*, Microsoft Teams, and Zoom Rooms
- LED availability indicator
- Remote management
- Support for additional room scheduling apps via Neat App Hub

*Neat Pad supports 3rd-party room scheduling apps for Google Meet rooms

neat.board 32

Built for small spaces and big ideas.

Elegant all-in-one touchscreen for small spaces and desks.

Neat Board 32

Spaces

Small spaces and desks

Features

- 32" all-in-one 4K capacitive touch device
- 140° wide-angle camera to capture more in tight spaces
- Doubles as a smart desktop monitor
- Single cable BYOD with laptop charging
- Stand and mounting options to adapt to any setup

Availability – Q2 2026

neat.board 50

**Everything you
need to
achieve more.**

Uniquely adaptable, flexible video
collaboration device.

Neat Board 50

Spaces

Small meeting rooms, huddle spaces, flex spaces

Features

- 50" all-in-one video collaboration board with touch display
- Optional mobile adaptive stand and adaptive mounting options with adjustable height
- Ships with a table stand and Neat Active Marker

neat.board pro

Welcome to the big leagues.

Powerful 65" all-in-one touchscreen device
with expansive audio and video.

Neat Board Pro

Spaces

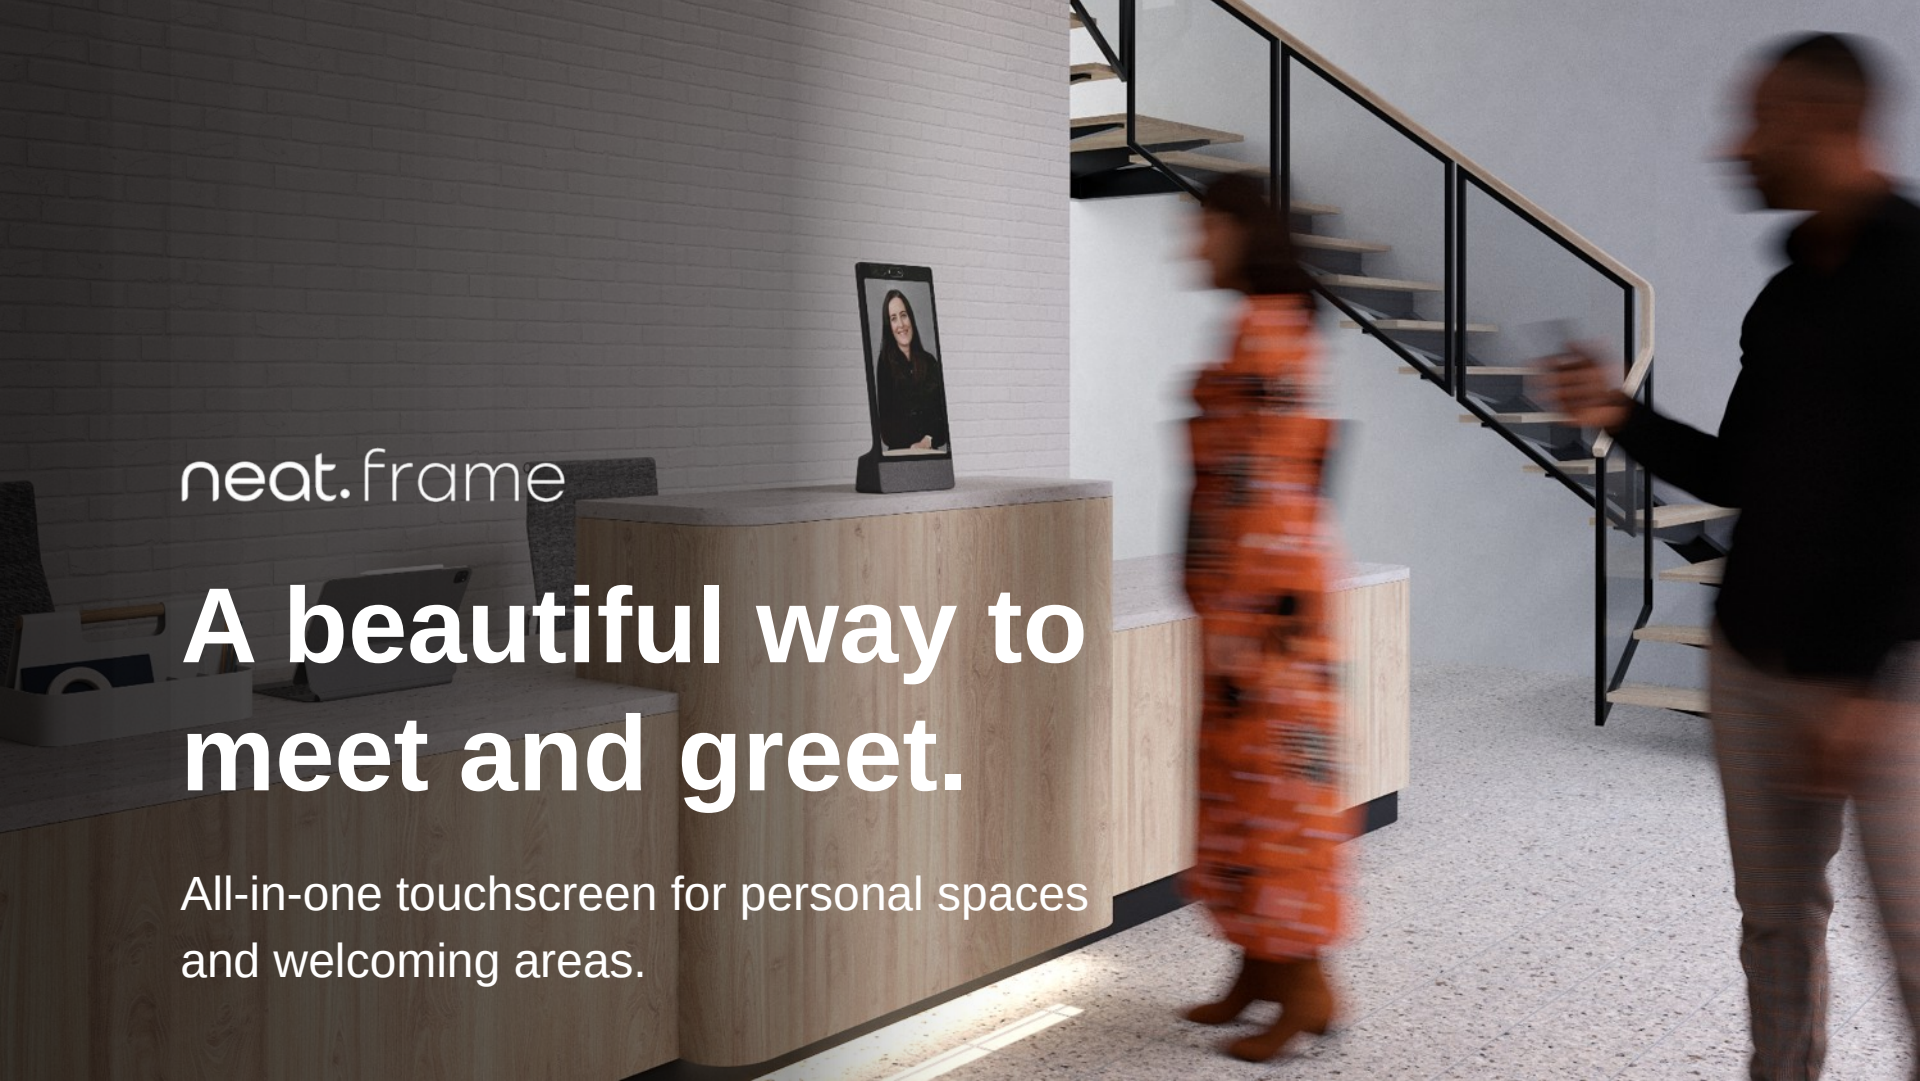

Medium to large size spaces

Features

- 65" 4K capacitive touch screen
- Telephoto and wide-angle lens
- Extendible audio for complex spaces
- HDMI-out for external displays
- Adjustable height for better accessibility*

*Optional adaptive stands and mounts are available.

neat.frame

A beautiful way to meet and greet.

All-in-one touchscreen for personal spaces and welcoming areas.

Neat Frame

Spaces

Lobbies, phone booths, desks

Features

- Slim 15.6" portrait touch display
- Ideal for visitor management through Neat App Hub and Zoom Virtual Kiosk
- Useful for personal meetings via Zoom or Neat App Hub
- Neat Audio, including deep noise suppression
- Unique experiences like Neat Symmetry and more

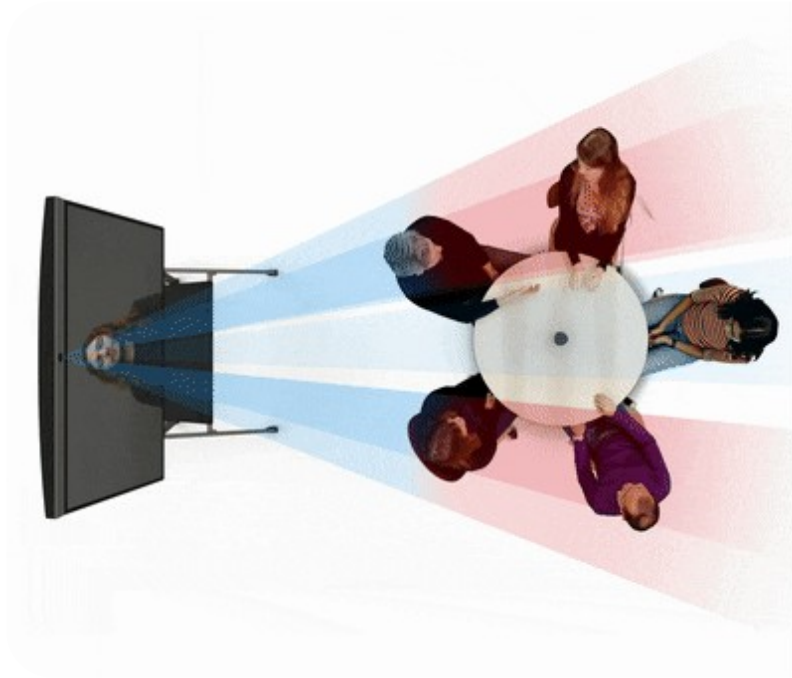

A group of four people are seated around a light-colored wooden table in a modern office setting. On the table sits a black, vertical Neat Center device. The background is a blurred office space with a grey wall and a whiteboard. The overall atmosphere is professional and collaborative.

neat.center

Don't miss a thing.

See and hear everyone better in medium to large rooms.

Ensure remote participants remain
front and center
of the conversation

Neat Center

Spaces

A wide variety of meeting spaces

Features

- Companion to Neat front of room devices
- Extends Neat Symmetry to the center of the room with 360 audio and video
- Simple setup with one cable for network and power.
- Flexible placement for versatile usage

Enhanced meeting
equity for a wide
variety of meeting
spaces

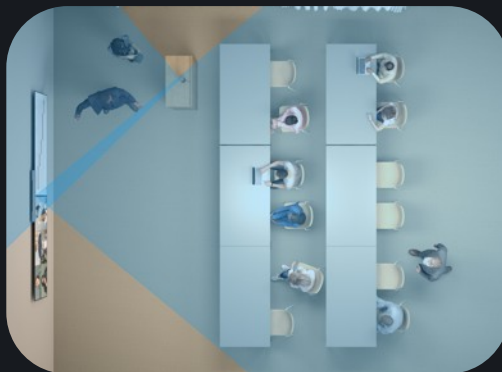

**Larger room
capabilities**

Neat Focus

Defining camera zones to prominently display people speaking in the room face-on to those on the far end of a call

Configuration

Far end view

Neat Bar Pro

Neat Center

Dual Neat Center support

Neat devices work together to intelligently frame each person and present the best view.

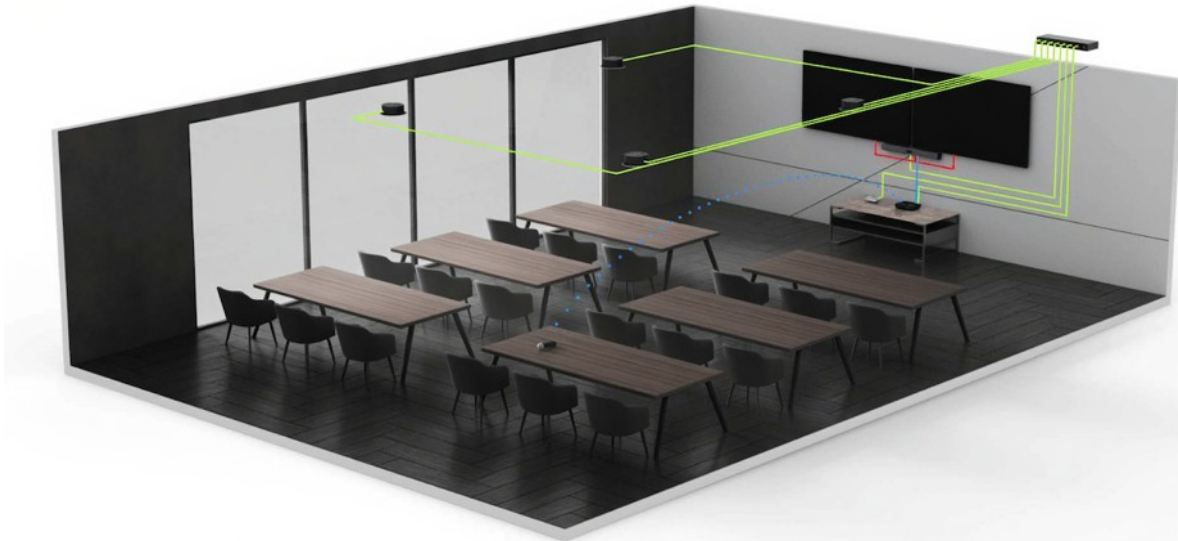

Extend the Neat experience to larger spaces

Neat Bar Pro and Neat Board Pro enable third-party audio via USB.

Connect to:

- DSP
- Ceiling mics and speakers
- Wireless microphones

neat.bar

Packs a punch.

Remotely manageable, dedicated

Appendix

Now TAA compliant

Neat Board Pro and Neat Pad are TAA compliant, delivering high-quality video collaboration that meets strict government standards.

Now Android 13. Ready for Android 15 and Beyond.

Q4 2025: All current Neat devices* are upgrading to Android 13, aligned with certification standards from Google Meet, Microsoft Teams, and Zoom.

Ready to support Android 15 and beyond, ensuring a long runway of compatibility and certification for years to come, which means:

- Reduced risk of forced hardware refresh cycles
- Continuous access to security and feature updates
- Smarter investment with no dead ends or "platform wall"

*Neat Bar gen 2, Neat Bar Pro, Neat Board 32, Neat Board 50, Neat Board Pro, Neat Pad, Neat Center and Neat Frame (Neat Frame with Zoom only)

Note: Other vendors' products are limited to specific operating system version—like Android 12—where certification updates will soon stop. Security patching slows or ceases entirely.

Optimized for edge AI and real-time audio and video

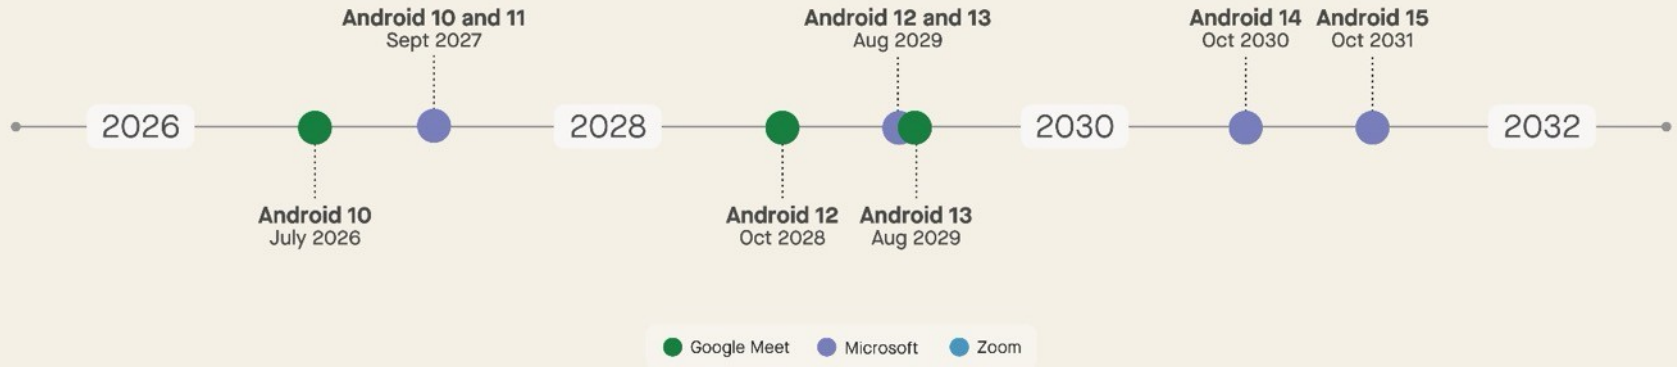

- Purpose-built for real-time communication — optimized for video and voice; efficient, dedicated AI engines
- Designed for edge AI — on-device processing closer to end user, enables instant analysis and adaptive behavior
- System-on-chip efficiency — CPU, GPU, AI, ISP, DSP, and modem integrated into one SoC
- Low power consumption and heat, quieter cooling, instant real-time responsiveness — intelligent, sustainable collaboration
- Qualcomm Snapdragon SoCs power more than 80% of flagship Android phones, nearly every major Android OEM

All Neat devices except Neat Pad run Qualcomm platforms

Qualcomm

Android OS end-of-support dates for Google Meet and Microsoft

● Zoom publicly provides certification dates for OEMs, but historically has not published support timelines for Android.

Our Responsible Journey

2024

Explore Neat's story on sustainability and responsible business practices by downloading the “[Our Responsibility Journey](#)” eBook.

Manufacturing

We seek and maintain partnerships with suppliers who share our values and commitments to ethical practices, sustainability and a positive social footprint. All our manufacturing partners comply with the Responsible Business Alliance and have a 100% completion rate for employee social and environmental responsibility training. Here are the collective goals and certifications our manufacturing partners have in place.

Renewable energy goals

Carbon reduction goals

“At Neat, we see sustainability as a responsible choice we make every day. Our commitment to sustainability in our manufacturing and supply chain reflects our dedication to a better future. We measure our success in profit and the positive impact we make on the planet and people.”

Hella Bekkat
Head of Supply Chain & Operations

Material Management

Our suppliers adhere to international regulations monitoring the inclusion and sourcing of materials. This is also true of regulations involving the management and usage of hazardous materials.

100%
Conflict free mineral sourcing

100%
RoHS compliant¹

100%
REACH compliant¹

¹Regulations of the European Union and other countries that restrict the use of certain hazardous substances in electrical and electronic equipment.

Rethinking Inside the Box

After launching Neat Bar Pro, we redesigned Neat Pro's packaging to reduce the overall size of the bundle by 20% midway through its lifecycle.

Original

Redesigned with 20% reduction

A new bracket we designed to secure the Neat Board 50 tablet stand while in transit increased shipping efficiency by allowing 20% more units to fit inside the same container volume.
